## FOREWORD

The major portion of this fine sale of rare coins consists of the old collection formed by the late David A. Woods, of Toronto, Canada. Mr. Woods was born in 1852, and was an early dealer in Canadian coins and tokens. While living in Galt, Ontario, he dealt extensively in these materials. His large collection of broken bank bills and firearms was dispersed after the World War. He also collected some five hundred different British War Decorations, a magnificent collection, which will be sold later.

From about 1906 until increasing age forced him to drop his coin activities in 1931, he was A.N.A. No. 559. This makes him one of the old originals in Canada. This collection of splendid coins Mr. Woods was able to bring together in these long years, has been turned over to us by the executors to be sold without reserve, for the two grandsons, heirs of the estate. We trust that all collectors will select some items from the collection.

## TERMS OF SALE

All coins and bills guaranteed genuine.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25% of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

Collectors who make unlimited bids will get the lots at 5% above the highest actual bid entered.

**The terms are prompt cash settlement** after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

**Remit by money order, draft, check, or in any way most convenient.** Stamps accepted for accounts that are below one dollar only.

**Coins will be bought below your bids** where other offers permit, as this is competitive bidding, executed in good faith.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. Postage and express is paid by the purchaser.

Receipted bills are not sent out after your remittance as this is unnecessary. **Your check, draft or money order itself is a receipt.** However, if a 3-cent stamp is enclosed we will send receipt.

**Be certain that you bid on the lot you wish to buy.** We will correct errors and adjust claims, but you should not expect us to pay for your mistakes. **Be careful in making your bids.** Be sure that you bid on the lot you wish to buy, and **at so much per piece.**

**Bids must reach me by the morning of the sale.** Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same,

and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5% advance over the highest actual bid.

Between the seller and buyer, my position in describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative, by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

NOTE—A printed list of all the prices realized at this sale will be sent for one dollar, cash with order in advance. Or it will be furnished to bidders at this sale for only 25 cents in coin, if ordered in advance of the sale, and a quarter is enclosed with the bids. It is a great help and a satisfaction to keep posted on values.

### THE DAVID A. WOODS COLLECTION UNITED STATES SILVER DOLLARS

1. 1795 silver dollar. Flowing hair. Three leaves under each wing. Haseltine No. 5. Very good.
2. 1795 dollar. Flowing hair, head like the 1794 in style. Two leaves under each wing. The very rare die variety. H. 9. Reverse has 17 berries. Fine.

### A NEW BOOK

COIN COLLECTING, by Joseph Coffin, is just off the press. Both beginning and advanced collectors will find many useful items of interest in its 150 pages. There are seven pages of plates. Its ten chapters deal with Starting a collection, U.S. Coins, Paper Money, Foreign Copper, Nickel, and small silver coins, Silver crowns or dollars, Ancient coins, Encased postage stamps, Tokens and medals, Exceptionally rare coins, The care of coins and cleaning them, Making a profit from collecting. The appendix lists the number of U.S. commemorative half-dollars, coin exhibitions, and a list of reliable dealers. There is a glossary of numismatic terms, and a numismatic bibliography. Books may now be obtained from us at \$1.75, the publisher's price.

---

### A TRIP ABROAD

(Continued from 115th catalog)

Trondheim, the old Viking capital of Norway, is in the latitude of Alaska and southern Greenland. It ranks third in size in the country, with 60,000. It was founded under the name of Nidaros, meaning "Mouth of the River Nid" in A.D. 997, by King Olav Trygvason, the first king to unite Norway into one country. Arriving by train in this city at 10 p. m. in broad daylight, we went to a leading hotel, the Britannia, and it was packed. However, the hospitality is so fine that we were accommodated in a huge convention

room on the first floor just off the hall. Two beds were moved in for us, and the furniture left as it was. Lovely light chandeairs, curtains 15 feet high at the windows, and luxurious drapes were more than we were used to in sleeping rooms. A thunder shower came up, and residents became much excited. Newspapers came out in the morning stating in headlines that it was the worst electric storm on record. To us it was most ordinary, having seen many worse ones.

The Cathedral at Trondheim is the largest and finest ecclesiastical building in Scandinavia. It was started in Roman style in the 11th century, but not finished until the 14th, the best period of Gothic style. It is built of wonderful stone, marble floors and columns of great height, with magnificent carvings and sculpture in stone. The process of restoration is now in progress and will take 75 years. The inside is some 300 feet long, the altar and art work beautiful. Visitors drop a few coins into the money chest for the poor.

The next day was spent visiting museums and shops, and, of course, always in the fascinating search for rare coins, which are often discovered in places least expected. Another rain came up, and dark clouds appeared, and we boarded a train east-bound for Sweden. It became darker than at midnight there, but, of course, it is not very dark at night so far north in July. The train followed Trondheimfjord, then along the river, and into the mountains and rugged wooded lands, pretty country to travel through. The rivers are short and torrencial but provide some of the finest salmon fishing in Europe.

At Storleien, Sweden, near the border, customs officers examine luggage and passports. The train stops 30 minutes for lunch, and we had coffee in the station, and some good sweet cookies, the first since leaving America. One must remember that sugar is not produced in the northern countries, is much higher-priced, and people get used to a sparing use of it. So generally the crackers and cookies are about as edible as American pasteboard. A Swedish left-hand drive electric locomotive takes us through the mountains. Its little shrill whistle is very funny. Buildings in rural Sweden are well kept, and red is the prevailing color.

(To be continued)

For 50 years its monthly visits have been a source of inspiration and a stimulus to all grades of collectors from the beginner to the advanced student.

# The Numismatist

An illustrated monthly for those interested in Coins,  
Medals, and Paper Money

The volume of 1937 contains 1188 pages.

Many illustrations each month.
